

# Specialty

Specialty bins allow items not accepted at curbside recycling to be recycled, preventing items such as batteries from entering landfills.

## The Battery Recycling Bin

- Collects and stores batteries safely so they can be brought to your battery disposal location
- Comes with lid, battery hole opening and appropriate labelling
- Can hang from two screws

**Capacity**  
2.4 Gallons

**Stock Color**

Custom stamping available

## The Odor-Free Diaper Pail

- Lid has carbon filter which eliminates odors
- Lid fits tight, ensuring no mold or unwanted moisture gets in container
- Easy to seal, carry and empty

**Capacity**  
14 Gallons

**Stock Color**

Teddy bear carbon filter eliminates odors

## Big Bottle Recycler

New Product!

- Ideal for use at large venue locations: stadiums, theme parks, theaters
- Constructed of durable (virtually indestructible) opaque plastic, containing 100% post-consumer waste material
- Optional weight base for stability in outdoor conditions
- 35 gallon receptacle bag secures around upper lip of base (one bag included with unit)

**Stock Colors**

**More Colors**

Green, red and blue available with minimum order of 100 units.

**Capacity**  
35 Gallon

This container made with 100% post-consumer material waste

"Bottles and Cans Only" message embossed at bottle openings (at front & back)

Color options allow container to be personalized as desired
